Health Savings Account (HSA)
A health savings account (HSA) is a set up through a bank of your choice into which you can deposit after-tax money for your qualified healthcare expenses at any time without federal tax liability or penalty. You can then deduct your contributions on your income tax return even if you do not itemize deductions.

Flexible Savings Account (FSA)
A FSA or Medical Reimbursement plan is available and will allow you to pay for certain expenses with pre-tax dollars. This saves Federal income, State income and Social Security taxes on qualifying expenses.

Dental Insurance
Dental insurance for employees and their dependents is available through MetLife. A wide array of preventive, maintenance and restorative dental services are included in this plan. Details regarding payroll deductions may be found below. Click here for an overview of benefits offered through the MetLife dental plan.
