<b>Paid Time Off</b>	Most full-time employees accrue 240 hours of paid time off annually. This is equivalent to thirty 8-hour days. Paid time off is used for holidays, vacation, personal and sick leave. Employees begin accruing paid time off immediately upon the commencement of employment.
<b>Benefit Eligibility</b>	Employees are eligible for benefits the first of the month after 60 days of employment - with the exception of the 401(k) plan (which is effective the first of the month after 90 days of employment).
<b>Health Savings Account (HSA)</b>	If you enroll in an HSA-qualified plan, you may set up an HSA through a bank of your choice into which you can deposit after-tax money for your qualified healthcare expenses at any time without federal tax liability. You can then deduct your contributions on your income tax return even if you do not itemize deductions.
<b>Flexible Savings Account (FSA)</b>	An FSA or Medical Reimbursement plan is available and will allow you to pay for certain expenses with pre-tax dollars. This saves Federal income, State income and Social Security taxes on qualifying expenses.
