

# Career opportunity

## Registered Nurses

### Assessing clients for eligibility for in-home personal care services

Registered Nurses who enjoy home health and working autonomously are encouraged to consider an outstanding career opportunity with Liberty Healthcare Corporation.

Liberty Healthcare is currently accepting applications from Registered Nurses for multiple newly-created full-time “Independent Assessor” positions affiliated with a new statewide program in Wisconsin.

As an Independent Assessor with Liberty Healthcare, your role would be to assess clients to help determine their eligibility for Medicaid-funded in-home services. In this role, your regular responsibilities would include:

- Traveling throughout the local region
- Visiting clients in their homes or other residential settings
- Assessing client’s health status, activities of daily living and living environment
- Completing electronic reports related to client’s health status, diagnoses, medications & other factors

Liberty Healthcare’s Independent Assessors are responsible for administering one-time client assessments, however they do not provide direct nursing care or personal care services to clients. These are remote field-based positions which allow for some work from home and require regular daily travel to client residences throughout the region.

#### As a full-time employee of Liberty Healthcare and Independent Assessor you can expect:

- Competitive salary
- Monday through Friday work schedule
- Mileage reimbursement
- Training and orientation on Liberty’s standardized assessment tool
- Benefits package which includes health insurance, paid time off, 401k plan and more

Well-qualified candidates will possess the following attributes:

- Registered Nurse license in Wisconsin
- Home health, hospice or similar field-based nursing experience
- Ability to effectively use a laptop and other remote office technology
- Possess a vehicle in good working order and willingness to travel within the local region
- Ability to perform well while working autonomously
- Ability to commence employment on May 1<sup>st</sup>

Applicants may not have any involvement with a personal care service provider that would present a conflict of interest with Liberty Healthcare’s contract with Wisconsin’s Medicaid agency. Applicants must disclose any current or prior relationship with a Wisconsin Medicaid-funded provider of personal care services.

Liberty Healthcare provides a wide array of health and human services to people throughout the United States. We serve people in their homes and communities as well as in hospitals and specialized treatment settings. We help people who have physical and mental illnesses get better. We serve people who have disabilities – ensuring they receive vital services, are safe, well-cared for and live as independently as possible.
