

# Aging and Disability Support

Helping maximize independence and quality of life

Liberty Healthcare has provided services to aging individuals and adults with disabilities since the late 1980s. Our services include medical and behavioral staffing and supports, home-based needs assessments, and programs for adults with neurodegenerative conditions and traumatic brain injury. Our clinical teams stabilize acute conditions, facilitate the development of self-management skills, and help people maintain stable, productive, and satisfying lives in the community.

Liberty provides medical leadership and on-site clinical staffing for long-term care facilities, implements acute and long-term geropsychiatry treatment programs, and manages statewide assessments for long-term care supports and services (LTCSS). We have also provided statewide quality oversight for thousands of citizens who are elderly and have one or more disability.

**45,000+**

reports of abuse, neglect, or exploitation fielded and screened since program inception in 2014

**65,000+**

assessments performed to determine eligibility for personal and related long-term care supports and services

**40+**

clinicians serving people who are elderly and adults with disabilities under one contract

## THE LIBERTY ADVANTAGE

- Experience delivering a diverse array of clinical services through specialized programs for people who are elderly, as well as those with disabilities
- The ability to recruit, train, deploy, and manage mobile statewide workforces to conduct in-home LTCSS needs assessments
- A successful track record of collaborating with public agencies, providers, advocacy organizations, and other stakeholders

## PROGRAMS AND SOLUTIONS

### HEALTH WORKFORCE OUTSOURCING

- Clinical leadership and staffing for agencies, facilities, and specialized programs

### INDEPENDENT ASSESSMENTS

- Eligibility assessments for Medicaid services

### ADULT PROTECTIVE SERVICES

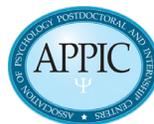

- Statewide programs to protect vulnerable persons with disabilities

The Liberty corporate staff is experienced, accessible, and very well informed. They managed the implementation of the contract extremely well, establishing a collaborative and transparent relationship with my office and other executives with whom they interacted from the outset.

We are pleased with our decision to contract with Liberty. They are committed to providing high quality and consistent services that truly add value for the state Medicaid program, our beneficiaries, and our providers.
