

Behavioral Health

A holistic approach to client wellness based on best practices and person-centered principles

Liberty Healthcare designs and implements cost-effective behavioral health programs based on the principles of recovery and person-centeredness. We develop solutions that are tailored to each customer's unique needs, while making the most efficient use of available resources. Liberty's programs are based in a wide variety of settings, including community-based settings, hospitals, forensic psychiatric facilities, correctional facilities, and outpatient clinics.

Liberty specializes in forensic mental health services and the community management and reintegration of individuals with challenging behaviors, including assertive community treatment and re-entry programs. Our programs are designed to meet the customer's specific needs while integrating best practices, compassionate care, and operational skill.

PROGRAMS AND SOLUTIONS

HEALTH WORKFORCE OUTSOURCING

- Clinical leadership and staffing in a variety of settings

PROGRAM MANAGEMENT

- Management of inpatient, outpatient, and residential programs

COMMUNITY REINTEGRATION

- Step-down programs to return clients with challenging behaviors to community settings

Liberty has provided many critically needed long-term staff for our hospital, including psychiatrists, medical doctors, nurse practitioners, physician assistants, a psychologist, and a Director of Nursing. They have also secured and manage a team of effective on-site after hours providers who are the front-line clinical leaders on evenings, weekends, and holidays.

The company has a longstanding reputation of integrity. They work well in a "blended" staff environment, becoming part of the medical staff comprised of state employees, faculty, and contractors.

Clinical Director
STATE PSYCHIATRIC HOSPITAL

more than

22

years without failing to provide a clinician to cover a shift at a state psychiatric center

approximately

45%

reduction in average length of stay in an inpatient acute psychiatric unit

less than

5%

annual turnover of physicians and psychiatrists statewide

THE LIBERTY ADVANTAGE

- Track record of recruiting and retaining clinicians and staff to support a variety of clinical settings
- Success designing and managing programs that provide a continuum of inpatient, residential, and outpatient care
- Ability to manage "blended" staff arrangements through our practice management models and flexible outsourcing solutions
